

### **Spotlight**

Just a friend just a lonely friend  
But he's got so much to give its hard to  
See him reach the end  
And it's a long trip down that road to fame  
It's a life that makes you search your soul  
Is it really him

Standing in the spotlight hiding in the shadows  
He's standing in the hot light alive another day  
Fighting on the front lines he's waiting on the side lines  
Standing in the claims line survive another day

Yes there are times he doesn't know himself  
Does it matter both a peasant and a star  
Life goes on and complications rise  
But its just a grand illusion meant to open up your eyes

Standing in the spotlight its just another dark night  
Standing in the spotlight alive another day  
Standing in the spotlight

### **Old Gin Road**

Walking along the old gin road, nobody seems to care  
Many nights we spent out on that road  
Never really thinking that it would end

Should this song survive throughout the years  
And I lose your love  
I'll reminisce when I hear the melody  
Then we'll be walking there again  
Then we'll be walkin' there again

Time to remember the seasons change  
On that old gin road  
Words in a whisper were spoken there  
On that old gin road

You see this story is yours as well as mine  
We're all on that old gin road  
Walking hand in hand we hurry through the years  
Never really thinking that it would end  
Never really thinking that it would end

Should this song survive throughout the years  
And I lose your love  
I'll reminisce when I hear the melody  
Then we'll be walking there again  
Then we'll be walking there again  
Then we'll be walking there, then we'll be walking there  
Then we'll be walking there again  
Then we'll be walking on...

Old gin road, meet me on that  
Old gin road, somewhere out there  
Old gin road, time stands still there  
Old gin road, moonlight shines on  
Old gin road, meet me on that  
Old gin road, somewhere out there  
The full moon lights the way

### **White Turban Boys**

I could not sleep some song's in my head  
But the bridges keep burning and the chorus has fled  
And I don't know how to sing it  
Or how to write down the words  
The melodies that surround me  
Don't quite fit in with the chords

I'm never home when the telephone rings  
I can't complete the call  
You talk to me but the meaning's not clear  
I can't find nothing at all

And I love to be with my friends  
And I want to be found on the air  
But the curtain closed on me for my curtain call  
And my giant leap turned out to be a backward fall

But I'm glad I'm alive and I've found peace inside  
And I don't know how to say it but all my friends tell me

You're never home when the telephone rings  
You don't complete the call  
You talk to me but the meaning's not clear  
You can't find nothing at all

Well I'm on my way but where am I going  
I'd love to stay but the words aren't flowing

Well I'm on the wrong flight and its headed one way  
But all the white turban boys said have a nice day  
Oh-oh, wo-oh, wo-oh, wo-oh

### **Make It**

Misfortunes I've had the good and the bad  
All of my life's contentions  
Lead me to believe it isn't quite so easy  
To make it through this lonely world

Untrue to ourselves we try to mask our feelings  
To smile when we really mean to cry  
The weak and the strong the sad and the great  
pretenders  
All of us really want to know

Can't there be an easier way to get through this life  
There must be an easier way to make it  
Can't there be an easier way to get through this life  
There must be an easier way to make it

Rainbows and dreams visions of false illusions  
Slowly just take us take us to the ground  
And then we depend on our inborn resilience  
Trying to get back up again

And if we succeed there'll be another burden  
Waiting to try our weary souls  
How much can we take before we break down in anger  
And simply just stop and wonder why

### **Fear of Love**

Babe, We've been discreet for far too long  
One would stand up and say its wrong  
You can't just turn and walk away  
Now, slowly my thoughts begin to turn  
Back to the lessons I have learned  
From giving my heart away too fast

I, I was the shy one and you, you were the sly one  
But now, I found out why I built that wall

That's when a fear of love  
Was building up inside me and it left me cold  
'Till you showed me what its like to feel sincere love  
Blinded by the light it wasn't merely love  
That came and turned the darkness away

True I was about to give up hope  
It was impossible to cope  
Living inside this empty shell  
Shocked by your incredible surprise  
It hit me right between the eyes  
All those dead feelings were revived

I, I was the shy one and you, you were the sly one  
But now, we played it down for far too long

Just a few short hours and I start to feel this way  
Now as time goes on I sit and count each passing day  
That I spent with you trying to find tomorrow  
And some gold among the rocks  
We sifted sand looking for that glitter  
But the night came on too soon

That's when a fear of love  
Was building up inside me and it left me cold  
'Till you showed me what its like to feel sincere love  
Blinded by the light it wasn't merely love  
That came and turned the darkness to a real love  
Building up inside me one that won't grow cold  
And never take advantage of an easy love  
The pleasure turns to pain and when the lovin's done  
The feelings slowly fizzle away

### **Stay With Me**

It was murder it was torture  
It was obvious you left me flat  
I had bad times I hit good times  
But you just don't seem to care where I'm at  
Like a fast ride on a water slide  
You always gave me thrill after thrill  
Then I landed reprimanded  
Now I want to get back up the hill  
It may be over but I just want to see you again

We don't have to talk about old times  
We don't have to talk about new times  
We don't have to talk about anything at all

Just stay with me for a little while stay with me  
Lets hang out  
Just stay with me for a little while chill with me

I was careful not to hurt you

But I kept on getting hurt myself  
Then you made it complicated  
By telling me you want to be friends  
I can't hide it I'm excited  
At the thought of seeing you again  
But I sense some apprehension  
From all the things that we went through back then  
We'll get together yeah we'll just have to do it again

Stay with me  
Stay with me  
Chill with me  
Stay with me

### **Writing it Out**

Signs coming from your eyes will indicate to me your  
true integrity  
They're telling the truth they're making it plain to see  
Words can't always translate your feelings deep inside  
The boundaries are too wide  
They get in the way and cause disarray sometimes

Writing it out, writing it out they're writing it out for me  
Writing it out, writing it out they're writing it out for me

Love follows no logic its course is hard to chart  
But it has to make a start  
So give it away its burning inside of your heart  
Time keeps us a prisoner it blinds the truth we seek  
It makes the mortal weak  
Its hard to define its obscure and oblique

### **Mr. Sun**

Looking in your eyes I found a stairway to your mind  
Walking up those stairs I saw that you were really blind  
To the love that I've been giving you its nothing that I'll  
find  
For you don't really love me you're just trying to be kind

Hey, hey Mr. Sun where have you gone and what have  
you done  
Hey, hey Mr. Sun where have you gone and what have  
you done

Sitting in my empty room I'm locked inside a dream  
Of the way I wish that love could be its never what it  
seems  
When the right one comes along you'll know for its  
written in her face  
But when you look for love in return you won't even find  
a trace

Its twelve o'clock and I can't talk alone and incomplete  
Can't hear nor feel but I can see that I won't get to  
sleep  
Spend all my time in misery and I can't even fight it  
My mind my soul my heart is gone my lamp is now  
unlighted

### **Never Love**

Hold onto me while you're still with me  
How rare the time I spend with you  
I would wait a lifetime but they say our love should  
never be  
Never love, never love someone like me

Your tender touch will always warm me  
You're everything I'll ever need  
How magical the feeling but they say our love will never  
be  
Never love, never love someone like me

Even if they cut us down for being oh so brave  
They say its almost futile to carry on this way  
We must find a way to beat all odds we pray

Can't we find another place can't we find another time  
Can't we find another way for you and me  
Can't we find another place can't we find another time  
Can't we find another way for you and me

Can't we find another place can't we find another time  
Never love never love  
Can't we find another place can't we find another time  
Never love never love

Never love Never love  
Never love Never love

Can't we find another way for you and me

### **Destiny**

I'm broken down miles from my home  
Chosen the wrong places to roam  
So many choices to make  
So desperately hoping to find  
Pathways that lead to a time  
Where all the road signs are clear

Destiny's calling, calling me near  
I'm on my way back home  
Destiny's calling, calling me near  
I'm on my way back

Green signs and good times  
Peace love and sunshine to spare  
Those days are over for good  
Closed mind delusion  
Cloaked with confusion and doubt  
I'm not going back there again

I'm going home I'm going home  
On my way home I'm going home  
I'm on my way back home  
I'm on my way back home  
I'm on my way back home  
I'm on my way back
